Internet Radios

Amazon Echo Dot.
Internet Radio. No
Computer required. Take
it from room to room
with the additional

portable battery for just \$35.00. The Echo Dot will work fine without the additional portable battery but not as easy to move around. This unit is recommended by Classic America. We love it I have 5 of them. One travels with we all the time. I have one by my bed, one in the kitchen, one in the living room plugged into my stereo and one on the patio.
